

TESTIMONIALS

Eva Zapolskaja - International School of Law and Business, Vilnius, Lithuania Student of: Tourism and Hotel Administration

“A part of the courses that I attended at Constantin Brancoveanu University were specially created for Erasmus students, with modules lasting two weeks. They were much more interesting than those taught in my university.

In Pitesti, there are a lot of pubs, restaurants, museums and parks and the university campus has many facilities like the accommodation and the sports club.

Thank you Constantin Brâncoveanu University!”

Francisco Rodrigues, ISCAP, Porto, Portugal Student of: Marketing

„If there is anything that should be underlined about Constantin Bran-

coveanu University, it is surely the preparation of the courses, completely designed for the Erasmus students. They are completely in English, very practical and well scheduled, which gives us some free time to visit other places”.

Diogo Sousa, ISCAP, Porto, Portugal Internship: International Office

“Pitești overcame all my expectations: a city that is not big enough to get lost inside, but also not too small to get bored in. It’s a clean city, with an interesting night life and lots of places to go and have a good time. In the end, if you don’t want to go home walking, don’t worry about transportation. There are taxis everywhere and very, very cheap!

During day or night, the city is generally safe. Especially during the night I was surprised with the security I felt, even more than in my city, Porto”.

Candice Micou, Université Paris X Nanterre, Franța Student of: International Management

„I must say that I really liked the teaching method in Constantin Brancoveanu University, as the teachers are open-minded and interact with the students in and out of the classes. This allows you to interact with other students and the teacher, but also to express yourself”.

Pedro Couto, ISCAP, Porto, Portugal Internship: Communication Office

“When I accepted to do an internship at Constantin Brancoveanu University, I had no idea I would be so well accepted at this university where I feel at home. This experience is very good for me because it allows me to expand my professional training and helps me define my future career.

Why chose CBU?

Because it’s a modern university, with

great facilities to study or work as an intern”.

João Faria, ISCAP, Porto, Portugal Internship: International Office

„During the 3 month internship in the International Office, I developed a Marketing Plan focused on the WEB 2.0 approach to Constantin Brâncoveanu University in Pitesti, my host university. I experienced the Romanian culture which was amazing, I traveled to different cities, met so many people, lived their habits and became addicted to their culture. Mobility gives life, energy, brings success, brings the world to YOU!”. I took from this opportunity more than just the work experience. I took fantastic friends, stories, stories and more stories which is only possible if you answer YES to ERASMUS - this fantastic way of enjoying a student’s life. Mobility gives life, energy, brings success, brings the world to YOU!”.
